Delivery 150cc Improve the way your business delivers!

Looking for a cheaper delivery alternative?

The TGB Delivery Scooter is the only purpose built delivery scooter available and is guaranteed to reduce your delivery costs. Not only is the TGB Delivery cheaper to maintain and operate than a traditional delivery vehicle, they also present a unique branding opportunity with signage placement on the large 150 litre delivery box.

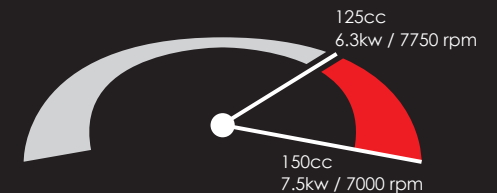

With a large 150 litre top box, the Delivery can move a diverse range of cargo. An optional heated thermo bag makes the Delivery scooter perfect for delivering perishable items. TGB Delivery scooters have for years been responsible for delivering your Domino's Pizzas hot and on time! Please ask us how we can tailor a complete supply and service package to suit your business requirements reducing your delivery costs and your carbon footprint.

Being a purpose built delivery scooter, the TGB Delivery has a unique weight distribution for improved handling and safety. Key features of the TGB Delivery include:

- 14" front wheel for improved stability
- 150cc Air / Oil Cooled 4-stroke Engine
- 150 litre top box
- Left and right side stands for easier parking
- Hydraulic front disc brake
- Lower centre of gravity for better balance
- Available in red, blue, yellow
- Suitable to deliver a wide range of cargo – Pizzas, Fast Food, Inner City Courier Runs, Automotive parts, pharmaceuticals etc.

150cc 20% more power to 125cc

Extensive research & development into the new 150cc engine has resulted in improvements in performance and longevity. Increasing the return on your investment.
